

City of Georgetown Challenge Programs Participant Preparation List

In order to make your outdoor experience more enjoyable, here are a few things you should know as a participant of the Georgetown Challenge Course.

- A. Clothing - During the day, your group will be participating in some active games and problem solving initiatives. Please wear comfortable clothing that allows ease of movement. Closed toe shoes are required. Athletic shoes are recommended. Please **do not wear sandals, Five-Fingers** or opened-toed shoes. In cases of cooler weather, dressing in layers is recommended. If your group will be participating in the High Elements, you should wear pants or longer shorts as you will be wearing a harness. Be comfortable!
- B. Jewelry – Your challenge course experience is designed to be fun and safe. To ensure this safety, we ask that all loose, expensive and dangly jewelry be left home.
- C. Sun Protection - Although parts of the course are shaded, we will be spending some time in the sun. We recommend that you protect yourself accordingly with sunscreen and a hat. On the other hand, if there is a chance of rain, bring a rain jacket.
- D. Food/Water - Water will be provided at the course site. Please **BRING A WATER BOTTLE**. We will be participating in high-energy activities, so you are welcome to bring snacks to eat throughout the day to boost your energy level. Please check with your group leader to see what lunch arrangements have been made for the day.
- E. Other - the Challenge Course *is* in the great outdoors and is therefore home to many agreeable (and a few disagreeable) creatures (mosquitoes, chiggers etc.). During the summer, bug spray or OFF is recommended.
- F. Smoking/Tabaco is not permitted on the Challenge Course.
- G. We will meet your group in the parking lot of Booty's Park.

We are looking forward to your day with us at the Challenge Course!
Call (512) 931-2644 if you have any questions!
