POINTS OF INTEREST

- 1 WILDLIFE VIEWING BLIND**
 This beautiful structure was constructed with funds raised by the Goodwater Master Naturalists. It features an enclosed space with clear window front overlooking numerous bird feeders, a water feature, and a native pollinator garden.
- 2 A.M. BROWN CABIN CHIMNEY**
 A.M. Brown settled the land that is now Garey Park in 1853! The portion of the chimney standing adjacent to the lower parking lot was part of his original cabin.
- 3 NATURE TRAIL**
 The Goodwater Master Naturalists constructed a 1.5-mile natural-material trail along the San Gabriel River. The upper portion of the trail is in a wooded area, allowing for excellent wildlife sightings.
- 4 BLUEBIRD BOXES**
 Situated around the Meadow Loop trail sit 15 Eastern Bluebird nesting boxes! Bluebirds generally nest between March-August. During that time, volunteers monitor the progress of each nesting box – recording nesting materials, parental visitation, nest hatchlings, and more!
- 5 SAN GABRIEL RIVER**
 The South Fork of the San Gabriel River creates the Northern boundary of the park! Fishing is allowed with a valid fishing license.
- 6 FISHING PONDS**
 Garey Park has two stocked fishing ponds for catch and release fishing. The ponds are stocked with Bass, Catfish, and Sunfish. The ponds are spring-fed and were dug by Mr. Garey himself!
- 7 CEDAR RIDGE TRAIL OVERLOOK**
 This overlook provides an excellent view of rolling hills from a shady spot under Juniper trees. Roadrunners are often seen in this area, as well as a plethora of other small birds flitting between trees.

Warn people when you are planning to pass.

Anticipate other trail users around corners and blind spots.

Ride within your ability at all times.
