

DIY Binoculars

At-Home Bonus Craft

Supplies

Toilet paper
tubes (2)
Art supplies
Hole punch
Craft tape
Yarn

Take two toilet paper rolls (or a paper towel roll carefully cut in half) and attach them together side by side using tape or glue.

Decorate! Use whatever art supplies you have available (markers, paint, stickers, etc.).

Punch a hole on each side of the binoculars and tie the yarn through the holes to make a strap.

Go outside to explore and play! What can you spot with your binoculars?
